DEFENCE RESEARCH & DEVELOPMENT ORGANISATION (DRDO)

DIRECTORATE OF AERONAUTICAL SURVEILLANCE SYSTEMS

Tender Reference Number : DRDO/AERO/2026/092

Project Title : Tactical Autonomous Surveillance UAV Systems

Procuring Entity : DRDO Ministry of Defence, New Delhi

Estimated Contract Value : INR 40.00 Crores

Tender Submission Deadline: 2026-11-20

STATUTORY COMMERCIAL & TECHNICAL MANDATES (ZERO-TOLERANCE)

1. Financial Turnover: Average audited annual turnover of preceding 3 financial years must not be less than INR 15.00 Crores.

2. Make in India (MII) Preference: Strictly Class-I Local Suppliers (minimum 50% domestic value addition) eligible under Public Procurement Order.

3. Chartered Accountant Certification: Must bear valid 18-digit ICAI UDIN.

4. Temporal Validity: Statutory security & OEM clearance certificates must remain strictly valid as on the date of submission deadline (2026-11-20).

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 2)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256),
fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 3)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256),
fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 4)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256),
fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 5)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256),
fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 6)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256),
fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 7)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256),
fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 8)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256),
fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 9)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256), fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 10)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256),
fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 11)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256), fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 12)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256), fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 13)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256), fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 14)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256),
fail-safe dual redundant avionics, and flight endurance standards.

DRDO/AERO/2026/092 - Technical & Operational Protocols (Sheet 15)

Military spec MIL-STD-810H environmental testing, encrypted datalinks (AES-256),
fail-safe dual redundant avionics, and flight endurance standards.
