TENDER SPECIFICATION: SECTION 4 - CYBERSECURITY REQUIREMENTS

Clause 4.1.1 (Mandatory - Pass/Fail):

The contractor must demonstrate automated recovery point objectives (RPO) of less than 15 minutes in case of catastrophic datacentre outage. Failure to provide validated SLA metrics will lead to tender disqualification.

Clause 4.1.2 (Scored - 20% Weight):

Provide details of data encryption standards across resting state and transit pipelines. Maximum response limit is 300 words.
